The statements published each day in THE LEDGER have been correct. They have been given for the information of rational people—and not for dambhools who prefer lies to the truth.

By-the-way, that country idiot who yesterday proclaimed that he knew there were many more cases here than have been reported in THE LEDGER, and that "he would head a mob to come down here and hang Tom Davis for telling lies," is respectfully invited to come right along at the head of his mob.

THAT'S THE LEDGER.

The Rev. T. DeWitt Talmage says—
"A newspaper whose columns overflow with the advertisements of business men has more influence in attracting attention to and building up a city or town than any other agency that can be employed. People go where there is business. Capital and labor will locate where there is enterprising community. No power on earth is so strong to build up a town as newspapers well patronized, and this power should be appreciated."

Mr. Wylie Fitch of near Aberdeen contemplates locating at Dayton, O.

Olive Hill, Carter county, will have a local option election April 22d, after being dry for fifteen years.
